EXPERIENCE

User Experience Lead
Burns Marketing. 8/2015 - 11/2016

My Role: Responding to RFPs, meeting with clients upon initial project kick off to assess business needs and needed deliverables for projects including Websites and applications. Regularly performed User Interviews, Persona Creation, User Journey documentation, Information Architecture Refinement, Interaction Design, Visual Design, prototype creation and usability testing.

Senior UX Designer
Davita, Falcon Physician. 10/2014 - 8/2015

My Role: Performing the duties of a business analyst using Agile methodologies, creating and managing a backlog for our development team, while also leading the redesign for the Falcon Physician IOS iPad application. Stakeholder interviews, Interaction Design, Visual Design, prototype creation as well Usability Testing.

User Experience Architect
Merkle Inc. 4/2013 - 10/2014

My Role: Led a full UX redesign package for a fortune 500 eCommerce site for the first year at Merkle. Included User Interviews, Stakeholder interviews, Focus Groups, Information Architecture, Interaction Design, Prototype creations, and moderated usability studies. Also worked on smaller projects for other clients such as AMEX, Metlife, Schneider Electric and several more.

EXPERIENCE (CONTINUED)

Mobile and Web UX/UI Design
Photobucket.com 7/2012 - 4/2013

My Role: User Interface design efforts for a full redesign for this internet giant. Included Mobile and Web layouts for both the Website as well as the mobile application.

Web Design & Development
Insight Software 4/2011 - 4/2012

My Role: Design and Front End Development for support of the marketing department. Utilized Photoshop, HTML, CSS, JavaScript as well as PHP.

Freelance Design, Development & Branding
Experiments in Light Media 9/09 - 7/2012

My Role: Branding, User Interface Design and Front End Development.
